Python 2 reached its official end-of-life at the start of 2020. This means that no new bug reports, fixes, or changes will be made to Python 2 - it's no longer supported: see [PEP 373](#) and [status of Python versions](#).

もしあなたが標準 Python ライブラリではなく拡張ライブラリでの移植手段を探しているならば [cporting-howto](#) を参照してください。

The archived [python-porting](#) mailing list may contain some useful guidance.

Since Python 3.11 the original porting guide was discontinued. You can find the old guide in the [archive](#).
